

Career Posting: Management Consultant

Agile OAK LLC is a boutique consulting firm advising Life Science, Manufacturing & Fortune 500 organizations on the optimization of their Facilities Management and Real Estate functions. Typical Engagements might include:

- Operational assessments and benchmarking
- Market Research
- Contract Management
- Strategic Sourcing, outsourcing and in-sourcing
- Organizational Design and Governance

The Consultant will have the opportunity to work in a client facing role with a seasoned team of business minded individuals having a balanced experience in operations, engineering, manufacturing, construction and business development, strategic sourcing, real estate, etc.

The Consultant role is ideal for a professional with two to four years of experience who aspires to develop a challenging and rewarding career in consulting. For this position, Agile OAK is looking for a candidate with a Bachelor in business, economics or engineering with the following knowledge, skills and background:

- Excellent analytical skills
- Organized, reliable, detail oriented and able to deliver top quality work in a consistent fashion
- Can operate with minimal supervision
- Very good knowledge of MS Office tools, primarily Excel and PowerPoint

Prior consulting and facility management experience is desirable.

Agile OAK's team operates in a mobile office environment and typically works 60% at the client's site and the remaining time from home offices, although this can vary considerably based on client and business requirements

Global experience and fluency in French or Spanish are a plus.

If interested, please forward your resume, references and quick introduction email careers@agileoak.com

Thank you for your interest and consideration.
